

Run your gaming centre from one counter.

Netcraft Plus times every PC session, bills it, locks the PC when the time is up and keeps every sale in one daily report. For gaming centres, internet cafés and sim-racing lounges.

20+

years in gaming centres

~60

centres with a registered licence

350+

PCs in our largest centre

7

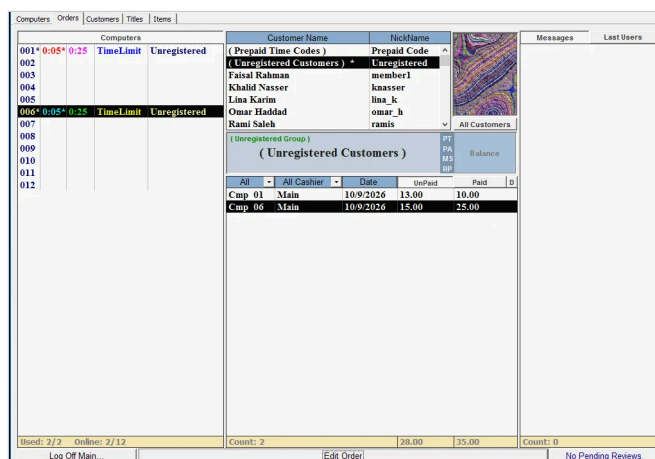

countries across the region

Why centres choose Netcraft

- **Internet goes down.** Keeps working on your local network
- **Licence.** One-time licence, no monthly fee per PC
- **Installation.** Installed remotely by us, with staff training
- **Support.** WhatsApp in English and Arabic, from the UAE

Everything the counter needs

Timed sessions and billing

Time limit or open time, minimum charge, rounding and free start minutes you set. Add time without stopping the session.

Members and prepaid hours

Accounts with prepaid hours or balance. Unused hours stay on the account for next time.

Café sales and stock

Your menu with prices and stock in the same program. Players can order from their PC.

Daily sales reports

From your opening time to the next morning, by cashier or payment type. Print it or export to Excel.

Every PC from the counter

Restart, shut down or wake PCs, open programs, and move a player to another PC without losing time.

Prepaid codes and reward points

Print time codes to sell or give away, and give members points on prepaid purchases.

Staff logins and rights

Separate logins for owner, admin and cashiers, with rights you choose and a record of every login.

Locked-down PCs

Block USB drives, Task Manager, Control Panel and programs you don't allow.

Made for your kind of place

- **Gaming centres and internet cafés.** PC groups with their own prices, members, prepaid codes, café sales, and consoles or tables timed at the counter.
- **Sim-racing lounges.** Every rig is a timed station. The racing game opens when the session starts and closes when the time is up.
- **Computers in any business.** Business centres, libraries, training rooms and offices: lock PCs, block USB drives and control what runs.

Getting started

- **Tell us about your place.** How many PCs, sim rigs and consoles you have, and how you charge. We send you a quote.
- **Server first.** We install Netcraft on your server and set your prices, opening hours, staff accounts and products.
- **Then every PC.** Your staff run a short setup on each PC with us on the line.
- **Training and guides.** We take your cashiers through a real shift and send short guides in English and Arabic.
- **Support on WhatsApp.** Message us when something is wrong and we connect to your server to fix it. Updates are included.

What you need

A server PC at the counter	Any PC with Windows 10 or 11 Pro, or Windows Server. It runs Netcraft Manager and keeps your data. We install everything on it.
Your gaming PCs	Windows 10 or Windows 11. Netcraft goes on the PCs you already have.
A local network	The server and all PCs on the same wired network.
Internet during setup	Only while we connect to install and train your staff. Day to day, Netcraft works without internet.
